

# Travelport Smartpoint 9.0

с 02 ноября 2019

- Новый графический интерфейс облегчает процесс вписания в системе и смены пароля
- В числе прочих доработок
  - Возможность изменения пароля по желанию пользователя
  - Смена устаревшего пароля
  - Смена временного пароля
  - Добавление email адреса для восстановления пароля в случае блокировки вписания
  - Просмотр карты мест из экранов наличия мест и поиска FS

Application Settings

### General settings

Language:

Theme:

Please note that some of your plugins/apps may need to be updated to run in the Flex Windows theme.

Color Schemes may be applied per window via the 'More Options' menus

- Auto-display sign on dialog
- Auto-display emulation dialog
- Show reset option when resolution changes

### Application Window Management

Application Windows:

- Application Windo...

Name of selected window:

Selected connection:

Font:

Font Weight:  Font Size:

AutoReceive

### Search Settings

Set the maximum number of search results you want returned at a time

Air Availability:

Flight Shopping:

Fare Display:

### Sell and Follow-On Settings

When entering a sell command for "last availability", sell from:

- The last availability returned from the terminal I'm focused on or referencing
- The last availability returned from any terminal

Note that this will also apply to follow-on commands.
